

To Whom it May Concern:

Hartford Hospital, Engineering and Facilities Planning has had the pleasure of doing business with Commercial Roofing & Contracting, Inc. for more than 25 years. Our 75+ acres of campus are home to 52 buildings. Our oldest building was built in 1823 with the majority of them being built before 1980.

Commercial Roofing & Contracting, Inc. has been a valuable asset for helping Hartford Hospital maintain or correct not only our roofing issues but building exterior issues as well. Their staff are knowledgeable and dedicated and keenly aware of the special requirements hospitals need to meet every day. They help to insure the safety and wellbeing of our patients, families, and staff. We have always found them to be very responsive to any issues that may arise within our organization where their expertise is needed.

I cannot overstate the dependability, quality, and value Commercial Roofing & Contracting, Inc. brings to the table when they are part of a project.

Sincerely,

John Wrobel, Associate Director  
Engineering & Facilities Planning  
Hartford Hospital
